dahon

Table 1

Table 1 shows the number of units sold for various Dahon bicycle models. The data is presented in a table with 6 columns. The first column lists the model names, and the subsequent five columns show the sales figures for different periods or categories. The models include various configurations such as 24-speed, 26-inch, and 27.5-inch wheels, and different frame styles like BMX and W-style.
